

## TECHNICAL DATA SHEET

### Industrial Rubber Flake

#### Description

Ambient ground black rubber, cut and classified to within each specific size parameter, reclaimed from new, post-industrial scrap rubber, *NOT* from discarded tires. Our Industrial granule has a greater longevity in UV conditions due to its superior quality of polymer content.

#### Applications

Used in molding operations, Shock pads / E-layers, ground cover applications.

#### Features

Free of metal, stone, fiber and other contaminants

#### Typical Physical Properties

Test	Result
Specific Gravity	1.10 – 1.25
Hardness (Shore A):	60 – 90
Tensile Strength:	3000 psi
Rubber Hydrocarbon:	35% minimum

\*\*Results may vary slightly, relative to the average scrap rubber raw material used.

#### Storage and Handling

Keep material dry at all times and out of direct UV contact while in the plastic packaging.  
*Read the Industrial Rubber Flake "Safety Data Sheet" before handling, or using this product.*

#### Packaging Form

Available in 2000 pound Tote Sacks.

#### Handling

Wear proper protective equipment at all times. Avoid contact with skin and eyes. In the event of eye contact, flush eyes thoroughly with water and seek medical attention. Consult SDS before handling and observe all recommended safety and handling practices. Pressure can build up in new and previously opened containers, open all containers carefully. Protect open containers from moisture. Dispose of contaminated materials and empty containers in accordance with Federal, State, and Local regulations.

#### Customer Notice

ARC encourages its customers to review their application of ARC products from the standpoint of human health and environmental quality. To help ensure that ARC products are not used in ways for which they were not intended or tested, ARC personnel will assist customers in dealing with ecological and products safety. Your ARC sales representative can arrange the proper contacts.
